LINDA PERHACS AND FRIENDS

Welcome to a celebration of the wondrous folk rock explorations of Linda Perhacs. The LA Weekly recently dubbed Perhacs' legendary 1970 album, *Parallelograms*; "... one of the most mystifying and beautiful moments of the psychedelic era, on par with any outré work of the time." This night of creative exploration will highlight both Perhacs' incredible album and the book that inspired it - Turn of the Century Theosophist manifesto, *Thought Forms* (first published in 1901 by Annie Besant). Perhacs' songs, as well as the science and philosophies of this incredible century-old tome, will provide the backdrop for an array of experimental film and projected original artwork as well as live musical and dance interpretations of Perhacs' work by a variety of contemporary artists. Please join Linda and her friends, for an evening of joy and inspiration!
